

Instructions for use **BROWXENNA®**

BEFORE TINTING

1. Remove make up carefully using micellar water. Do not use oil-based means.
2. Prepare eyebrows for tinting. Use the BROWXENNA® SHAMPOO. Shampoo gently and deeply cleanses the hair of the eyebrows and the skin surface, has the effect of light peeling, gently removes dead skin particles, contributing to better fixation of the color.
3. Rinse the shampoo with TWO-PHASE FIXING TONIC BROWXENNA®.

MIXTURE PREPARATION

1. In a non-metallic container, mix the coloring composition (the amount of coloring composition is equivalent to 2 rice grains) with 4-8 drops of MINERAL SOLUTION BROWXENNA®. The mineral solution does not contain impurities, additives or metals. It guarantees that the desired hue will be achieved and extends coloring.
2. Mix the resulting composition thoroughly. When necessary, add solution or dye composition to the mixture to obtain the desired consistency of soy sauce.

EYEBROW TINTING

1. Apply a thin layer of the mixture (try to avoid making spots or gaps) using a brush on the skin and hairs, to create an ombre effect. Pay special attention to the symmetry and definition of the lines.
2. For a well-defined and even result, apply coloring composition BROWXENNA in several layers.
3. Wait till the layer dries before applying the next layer.
4. Carefully apply the coloring composition, lifting the hairs of thick eyebrows with a brush. Spread the color evenly.
5. After complete drying of the last layer moisten the composition and remove from the eyebrows with a cotton pad moistened with a TWO-PHASE FIXING TONIC. To obtain a more intense result of tinting, the time of application of the composition on the eyebrows can reach 25 minutes from the moment of application of the first layer.

PRECAUTIONS

The product BROWXENNA® is appropriate for professional use only.

- The product contains ingredients that may cause skin irritation if you are hypersensitive to the ingredients. 24-48 hours before the procedure be sure to conduct a sensitivity test (for this, apply the prepared coloring composition to the elbow bend).
- Do not use the product on irritated or damaged skin.
- Do not use the product for coloring eyelashes.
- Avoid contact with clothes.
- For tinting use only freshly prepared coloring composition.
- Do not store diluted coloring composition.
- Use disposable gloves when working with the dye.

Store in a cool and dry place, keep out of reach of children and animals. Shelf life: 2 years.

THE TINTING EFFECT LASTS ON THE SKIN FOR UP TO 14 DAYS, ON THE HAIR UP TO 6 WEEKS!*

* The duration of the effect depends on the individual characteristics of the skin.

BrowXenna

1. Serum for eyelash growth BROWXENNA® promotes active growth and increases the volume of eyelashes. Keratin has a restoring effect on the structure of the hairs, they do not break and do not fall out. Balanced composition of the serum improves the quality of the lashes, strengthens them and gives them flexibility and silk radiance, and protects the lashes from aggressive environmental influences.

2. Oil for eyelash and eyebrow growth BrowXenna® Oil for eyelash and eyebrow growth BROWXENNA® – an effective tool for quick recovery of eyebrows and eyelashes. The composition of the oil includes a complex of 17 active components, which intensively moisturizes, strengthens.

3. Mineral solution BrowXenna® The unique formula of the mineral solution promotes high-quality interaction with BROWXENNA® henna and prolongs the durability of the tinting. Mineral solution BROWXENNA® does not contain impurities, additives and heavy metals.

4. Shampoo-foam for deep cleansing of eyebrows BrowXenna® Shampoo-foam for deep cleansing of eyebrows BROWXENNA® gently and deeply cleanses the hair and the skin of the eyebrows before the tinting. Shampoo-foam has the light peeling effect.

5. Two-phase fixing tonic BrowXenna® Two-Phase Fixing Tonic BROWXENNA® is specially created to fix the henna on the skin. Fixing Tonic effectively neutralizes the effect of cleansers and restores the natural ph-balance of the skin

6. Serum for eyebrow growth BrowXenna® Serum for eyebrow growth BROWXENNA® promotes active growth of eyebrows, helps to restore its shape in a short time. A special formula of serum stimulates growth of keratinocytes of hair follicles which leads to strengthening and additional growth of hairs. Due to its balanced composition the serum provides nutrition and care to the eyebrows.

7. Lamination glue for eyebrows and eyelashes BrowXenna® The glue BROWXENNA® allows to fix the hairs in the right direction before the lamination treatment.

8. Eyebrows and eyelashes lamination BROWXENNA® is a stepwise procedure, which effect persists up to 2 months. The lamination procedure helps to strengthen the hairs, gives them volume and the desired shape, prevents breakage and makes the natural color more saturated.
